

TABLE OF CONTENTS

Approvals Page.....	ii
ABSTRACT.....	iii
Table of Contents.....	iv
List of Figures.....	ix
List of Tables.....	xiii
Acknowledgements.....	xv
CHAPTER 1: INTRODUCTION.....	1
1.1 Problem Statement.....	1
1.2 Objectives.....	2
1.3 Background.....	4
1.4 Motives for Research.....	6
1.5 Importance of Research.....	6
1.6 Contribution of Research to Knowledge.....	7
1.7 Overview of Document.....	7
CHAPTER 2: RESEARCH APPROACH AND METHODS.....	9
2.1 Introduction.....	9
2.2 Research Questions.....	9
2.3 Methods for Literature Review and Analysis.....	10
2.4 Research Strategy.....	12
2.5 Climatic Data	17
2.6 Geology.....	18
2.7 Geophysical Methods.....	19
2.7.1 Geophysical Methods Utilized	25
2.7.1.1 Seismic Refraction	25
2.7.1.2 Electrical Imaging	29
2.7.1.3 Transient Electromagnetic Soundings.....	32
2.7.2 Geophysical Methods Not Utilised.....	37
2.8 Correlation with Water Wells.....	39
2.9 Water Supply Calculations.....	40
2.10 Case Study Area.....	43
2.11 Summary.....	45
CHAPTER 3: BACKGROUND	47
3.1 Introduction.....	47
3.2 Global Perspective.....	47
3.3 Why Small Islands?.....	52
3.4 Water Supply/Availability.....	53
3.4.1 Conventional Sources.....	54
3.4.1.1 Surface Water.....	55
3.4.1.2 Groundwater.....	56
3.4.1.3 Rainfall Harvesting.....	56
3.4.2 Nonconventional Water Sources.....	57

3.4.2.1	Conservation.....	57
3.4.2.2	Desalination.....	59
3.4.2.3	Importation.....	60
3.4.2.4	Wastewater Re-use.....	62
3.4.2.5	Other Sources.....	62
3.5	Water Demand.....	63
3.6	Integrated Water Resource Management.....	70
3.7	Modelling.....	73
3.8	Discussion	77
CHAPTER 4: CLIMATE.....		79
4.1	Introduction.....	79
4.2	Climatic Variables.....	80
4.2.1	Precipitation.....	80
4.2.2	Temperature.....	87
4.2.3	Evapotranspiration.....	89
4.2.4	Other Parameters of Water Balance Equation.....	91
4.3	Relationship to Groundwater Resource Assessment.....	93
CHAPTER 5: GEOLOGY OF NORTH AND SOUTH PENDER ISLANDS.....		95
5.1	Introduction.....	95
5.2	Bedrock Geology.....	96
5.2.1	Extension Formation.....	103
5.2.2	Pender Formation.....	103
5.2.3	Protection Formation.....	104
5.2.4	Cedar Formation.....	104
5.2.5	DeCourcy Formation.....	105
5.2.6	Northumberland Formation.....	106
5.2.7	Galiano Formation.....	107
5.2.8	Mayne Formation.....	108
5.3	Structural Geology.....	109
5.4	Hydrogeological Properties of Bedrock Formations.....	110
5.5	Surficial Geology.....	112
5.6	Water Well Correlation.....	113
5.6.1	North Pender Island	113
5.6.2	South Pender Island	117
5.7	Relation to Groundwater Resource Assessment	121
CHAPTER 6: GEOPHYSICAL INVESTIGATIONS: NORTH AND SOUTH PENDER ISLANDS.....		123
6.1	Introduction.....	123
6.2	Survey Design.....	124
6.3	North Pender Island Geophysical Survey Results.....	130
6.3.1	MacKinnon Road.....	130
6.3.2	Roes Island and Otter Bay Road.....	133

6.3.3	Irene Bay Road.....	141
6.3.4	Corbett Road.....	144
6.3.5	Hope Bay.....	147
6.3.6	Hoosen Road.....	151
6.3.7	Community Hall.....	154
6.3.8	Brackett Cove.....	156
6.3.9	Razor Point Road.....	159
6.3.10	Allison Farm.....	161
6.3.11	Medicine Beach.....	164
6.4	South Pender Island Geophysical Survey Results.....	174
6.4.1	Higgs Road.....	174
6.4.2	Southlands Drive.....	177
6.4.3	Spalding Road.....	178
6.4.4	Canal Road.....	182
6.5	Summary.....	186
CHAPTER 7: LAND USE AND GROUNDWATER BASINS: NORTH AND SOUTH PENDER ISLANDS.....		187
7.1	Introduction.....	187
7.2	Land Use.....	187
7.2.1	North Pender Island.....	187
7.2.2	South Pender Island.....	189
7.3	Groundwater Basins.....	190
7.3.1	North Pender Island.....	192
7.3.1.1	Groundwater Basin NP-I.....	195
7.3.1.2	Groundwater Basin NP-II.....	196
7.3.1.3	Groundwater Basin NP-III.....	196
7.3.1.4	Groundwater Basin NP-IV.....	197
7.3.1.5	Groundwater Basin NP-V.....	198
7.3.1.6	Groundwater Basin NP-VI.....	199
7.3.1.7	Groundwater Basin NP-VII.....	199
7.3.1.8	Groundwater Basin NP-VIII.....	200
7.3.1.9	Groundwater Basin NP-IX.....	200
7.3.1.10	Groundwater Basin NP-X.....	201
7.3.1.11	Groundwater Basin NP-XI.....	201
7.3.1.12	Groundwater Basin NP-XII.....	202
7.3.2	South Pender Island.....	202
7.3.2.1	Groundwater Basin SP-I.....	203
7.3.2.2	Groundwater Basin SP-II.....	204
7.3.2.3	Groundwater Basin SP-III.....	205
7.3.2.4	Groundwater Basin SP-IV.....	206
7.4	Summary.....	206
CHAPTER 8: EXISTING LEGAL AND INSTITUTIONAL FRAMEWORKS: NORTH AND SOUTH PENDER ISLANDS.....		212
8.1	Introduction.....	212

8.2	Legal and Institutional Frameworks.....	212
8.2.1	Federal.....	213
8.2.2	Provincial.....	214
8.2.3	Local Water Policies.....	216
8.2.4	Local Water Systems.....	218
8.2.4.1	Magic Lake Estates.....	221
8.2.4.2	Razor Point Road Improvement District..	225
8.2.4.3	Municipal District of Trincomali.....	229
8.2.4.4	Poets Cove.....	235
8.2.5	Individual Water Wells.....	236
8.3	Discussion.....	240
CHAPTER 9: WATER MANAGEMENT PLAN: NORTH AND SOUTH PENDER ISLANDS.....		242
9.1	Introduction.....	242
9.2	Conceptual Model.....	242
9.2.1	Physical Setting.....	246
9.2.1.1	Remote Sensing.....	248
9.2.1.2	Geologic Mapping.....	248
9.2.1.3	Geophysical Mapping.....	250
9.2.1.4	Water Well Data.....	251
9.2.1.5	Climatic Data.....	252
9.2.1.6	Discussion.....	252
9.2.2	Governance.....	254
9.2.2.1	Institutional Framework.....	257
9.2.2.2	Legislation.....	265
9.2.2.3	Discussion.....	270
9.2.3	Risk.....	273
9.3	Discussion.....	283
CHAPTER 10: CONCLUSIONS AND RECOMMENDATIONS.....		286
10.1	Introduction.....	286
10.2	Conclusions: North and South Pender Islands.....	286
10.3	Recommendations: North and South Pender Islands.....	289
10.3.1	Razor Point Road Improvement District.....	289
10.3.2	Magic Lake Estates.....	289
10.3.3	Trincomali Improvement District.....	290
10.3.4	Greenburn Lake.....	290
10.3.5	Poets Cove.....	291
10.3.6	Individual Water Wells.....	291
10.3.7	North and South Pender Island.....	292
10.3.7.1	Education.....	294
10.3.7.2	Water Well Database.....	294
10.3.7.3	Water Well Records.....	295
10.3.7.4	Political Framework.....	295
10.3.7.5	Emergency Response Plan.....	296

10.3.7.6	Water Meters.....	296
10.3.7.7	Directional Drilling.....	297
10.3.7.8	Water Quality Testing.....	297
10.3.7.9	Limit Tourism.....	297
10.3.7.10	Adapt Building Codes.....	298
10.3.7.11	Well Head Protection.....	298
10.3.7.12	Pumping Rates.....	298
10.4	Conclusions: Global Perspective.....	299
REFERENCES.....		301
APPENDIX A: List of Groundwater Models.....		370
A1	3D Groundwater Flow Models.....	
A2	Groundwater Modeling Software Index.....	
A3	Groundwater Flow (2D) Software Index.....	
APPENDIX B: Pender Islands Groundwater Questionnaire.....		
APPENDIX C: Processed Geophysical Data, North and South Pender Islands....		
APPENDIX D: Water well data, North and South Pender Islands.....		

LIST OF FIGURES

Figure 2.1	Outline of water resource assessment process.....	13
Figure 2.2	Descriptive model change process in groundwater management..	14
Figure 2.3	Comparison of inductive versus deductive reasoning.....	15
Figure 2.4	Resistivity versus soil types of the unified soil classification system.....	23
Figure 2.5	Schematic of seismic refraction method.....	26
Figure 2.6	Seismograph and power supply.....	27
Figure 2.7	Sledge hammer as seismic energy source.....	27
Figure 2.8	Typical seismic refraction record.....	29
Figure 2.9	Schematic of multi-electrode resistivity.....	30
Figure 2.10	Electrical imaging array, Medicine Beach, North Pender Island ..	31
Figure 2.11	Transient electromagnetic sounding field set-up.....	33
Figure 2.12	Transient electromagnetic system waveform for Geonics Protem systems.....	34
Figure 2.13	Variations in current intensity with time after current shut off....	35
